

GULSHAN KUMAR KUSHWAHA

Data Analyst | Business Intelligence & Analytics | GenAI-Enabled Insights

+91 7330652064 | gulshankumarkushwaha28@gmail.com | www.linkedin.com/in/gulshan-kumar-kushwaha-b62282214 | Hyderabad, India

PROFILE

Enthusiastic, growth-driven learner currently pursuing a Postgraduate Program in Data Science & Analytics with GenAI, building hands-on skills in Excel, SQL, Python, Statistics, and Power BI. Brings real-world operations experience — handling live problems, coordinating teams, and driving process efficiency — and is now applying that same structured, results-oriented approach to data-driven decision-making. Strong foundation in data cleaning, EDA, visualization, and machine learning, with practical exposure to using GenAI tools (ChatGPT, Copilot) to accelerate analysis and reporting.

CORE SKILLS

- Data Analytics: Excel (Pivot Tables, VLOOKUP, INDEX-MATCH, Dashboards), SQL (Joins, Aggregations, Query Optimization), Exploratory Data Analysis
- Programming & ML: Python (NumPy, Pandas, Matplotlib, Seaborn), Statistics & Probability, Hypothesis Testing, scikit-learn, Random Forest, NLP, PCA
- BI & Visualization: Power BI, Tableau, DAX, Data Modeling, Interactive Dashboards
- GenAI & Productivity: ChatGPT, Copilot, Prompt Engineering, AI-assisted reporting & insight generation
- Other: MS Office, Databases (MySQL), Communication, Design Thinking, Project Management

EXPERIENCE

Rider Shift In-Charge — *Zepto*

- Monitored real-time operational data to optimize delivery routes and rider allocation, improving on-time performance
- Tracked performance metrics and resolved service issues to maintain high operational standards

Customer Service Representative — *Country Delight*

- Analyzed recurring customer complaints and delivery data to identify process gaps and improve satisfaction
- Coordinated with delivery personnel to ensure timely resolution, using tracking data to follow up on outstanding cases

Lead Generation Team Lead — *Leads Ark* — *Affiliate Marketing*

- Led a team focused on lead generation, using performance data to optimize conversion strategies
- Monitored campaign metrics to guide execution and contribute to platform growth

EDUCATION

- Imarticus Learning — Postgraduate Program in Data Science & Analytics with GenAI** 2026 – Present
- Coursework: Statistics & Probability, Python, SQL, Excel, Power BI/Tableau, Machine Learning, Deep Learning, GenAI | Hyderabad, India
- Vidya Jyothi Institute of Technology** 2021 – 2025
- B.Tech in Electronics and Communication Engineering — CGPA 7.2 | Hyderabad, India
- Narayana Junior College** 2019 – 2021
- Telangana State Board of Intermediate (MPC) — CGPA 7.2 | Hyderabad, India

PROJECTS

Fake Profile Detection on Social Networking Websites — *Machine Learning Project*

- Built a machine learning system to detect fake social media profiles using Random Forest Classifier, NLP, and PCA
- Engineered features from profile attributes (followers, activity patterns) and applied preprocessing to improve accuracy
- Achieved a 94% F1-score, supporting platform integrity and safer online engagement

EV Charging Station Finder & Slot Booking System — *Web + Database Project*

- Designed a full-stack platform (Python, Flask, MySQL, HTML/CSS/JS) for locating charging stations and booking slots
- Modeled relational data for real-time search, user authentication, and booking history tracking
- Delivered route-based station suggestions, supporting data-informed planning for EV users

CERTIFICATIONS

- Smart Coder (DSA) — Smart Interviews
- Programming Essentials in Python & C — Cisco
- Python 3.4.3 Training — The Spoken Tutorial Project, IIT Bombay
- Introduction to Artificial Intelligence — SimpliLearn
- Microsoft Azure AI Fundamentals — Microsoft Learn Student Ambassador
- Basics of Python & Introduction to Cloud Computing — Infosys Springboard
- Merit Code Fusion Hackathon — Talentio
